The Pro's Tool For All Purpose Paint Spraying, Sports Field & Pavement Striping!

Our Most Affordable Gas Powered Airless Sprayer/Striper

The heart of the Spray & Stripe series is the time tested and contractor proven Airlessco "LP" piston paint pump. It's used daily by thousands of painting professionals worldwide--with a reputation for trouble free performance that's unmatched in the industry.

The 3000 is small, compact, easy to use, and quick to clean. Even changing colors is a breeze. Stripe with water-based paints made for traffic lines or athletic fields. A professional quality spray gun is mounted on a multi-position spray arm. The 3000's balance and light weight make it ideal for a one-man operation.

A quick release of the spray gun from its mount lets you paint using stencils, or utilize the 50' of

supplied hose and the spray gun to paint building walls with exterior latex and enamel paints.

Flexibility makes it popular with cities, school districts, and sports programs for parking lot or athletic field striping, and for use as a mobile airless spraying station. It's perfect for painting fences, buildings, and covering graffiti.

"No Tools" removal of spray gun makes it easy to convert from striping to spraying

Performance Specifications:

Max Pressure 0-2500 PSI (170 Bar)
 Max Output 0.62 GPM (2.35 Litres/min.)
 Max Tip 1 gun @ 0.027 inch. 1 x 12" (30cm) line
 Weight: 120 lbs. (Ship weight 175 lbs.)
 Dimensions: 37"H x 24" W x 65" L

Shipped Complete Ready to Use:

Part # 305-229 Model 3000 with fixed front wheel
 Factory Installed Options Available:
 Swivel Front Wheel with "Radius Memory"
 Foot operated parking brake

Advantages & Features:

- STRIPES & PAINTS** – Stripe straight or curved lines on streets, parking lots, and athletic fields. Quick release spray gun and 50' of hose to paint with stencils or paint fences, walls, etc.
- FLEXIBLE SETUP** – Gun moves easily from one side to the other. Adjustable handlebars can be move up or done for user comfort: without tools. Hand-grip control on the swivel front wheel model makes painting smooth curves and perfect circles easy.
- STABLE** – Sturdy heavy duty powder coated tube steel chassis and large pneumatic tires for smooth striping on rough pavement or grass surfaces.
- CONVENIENT** – Bucket holder holds common size paint containers. Multi-position swivel gun moves easily from one side to the other.
- PROFESSIONAL RESULTS** – New Airlessco REV-TIP™ Striping Tips spray crisp, clean lines every time. Available in a variety of sizes to match your choice of latex and enamel paints.
- BUILT TO LAST** – Briggs & Stratton 3.5 HP engine features aluminum cylinder, ball bearing supported PTO, and recoil starter. Details like chromed handles and heavy duty mounting hardware show uncompromising quality throughout.

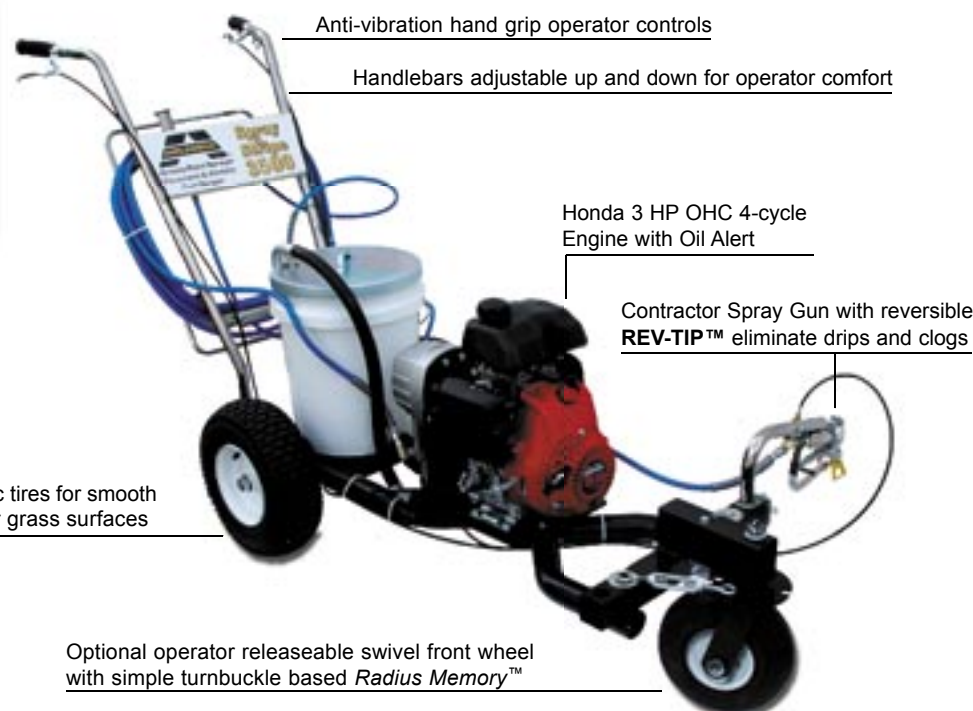

Spray & Stripe 3500: LP Pump Performance — Built for the Long Haul!

LP Paint Pump & Honda Durability Delivers Unbeatable Airless Striping/Spraying Value for Professional Users

All the convenience and value of the 3000 with the added durability of a Honda GX100 Commercial engine. Dependable Honda engines are the undisputed choice of professional contractors worldwide. These overhead cam 4-cycle engines set the standard for durability. The 3 Horsepower commercial engine on the 3500 features transistorized magneto ignition and "Oil Alert" to protect your investment. Perfect for contractor use as a 2nd or 3rd color machine.

Advantages & Features:

- PERFORMANCE** – Pulsation free striping delivers consistent width to your lines.
- FLEXIBILITY** – Converts instantly from striper to airless paint sprayer
- DRIVETRAIN** – Direct drive engine to paint pump eliminates gearbox problems.
- "SLOW-STROKING" PISTON PUMP** – Features a one-piece stainless steel piston and pump body, large tungsten carbide reversible seats, stainless steel balls and Airlessco's patented triple-life packing system that cuts maintenance costs and down time.
- LIGHTWEIGHT** – Makes it easy to push on pavement or turf. Handlebar design provides optimal user leverage for precise control keeping lines straight or following curves.
- DURABLE SUCTION SYSTEM** – Easy clean solvent resistant core resists corrosion.

Large 13" wide-track pneumatic tires for smooth tracking on rough pavement or grass surfaces
